GENERAL ARBITRATION AND SURVEY RULES.

(*As approved in* 1910.)

Whereas it is desirable to receive references from, to arbitrate between, or to hold surveys for parties willing to abide by the judgment and decision of the Chamber of Commerce, it has been decided by the Committee of the Chamber, and the decision has been approved and made operative by a General meeting of the Members, that the subjoined shall be the Rules to be observed and followed in all cases of disputes when the assistance of the Chamber shall be invoked, except such as relate to Piece-goods and Yarns which have been separately provided for.

1. For the purpose of giving effect to the above, the Committee of the Chamber of Commerce shall either appoint such Arbitrator, or Arbitrator Surveyors or Surveyors, as they shall think fit, or appoint a Sub-Committee of three persons, one of whom at least shall be a Member of the Committee of the Chamber, to consider and decide the reference.

If two Arbitrators or Surveyors are appointed and disagree, the Committee of the Chamber of Commerce shall appoint an Umpire whose decision shall be final.

2. The question to be referred to the Committee of the Chamber of Commerce under these Rules shall be such as relate to mercantile transactions generally, excluding those connected with Piece-goods and Yarns, as noted in the preamble.

3. In case of application to the Committee of the Chamber of Commerce for a decision in any dispute, the Committee shall select gentlemen to deal with and decide the reference.

4. Every application shall state that the parties concerned will accept and abide by the decision of the Chamber.

5. When a gentleman who may be appointed an Arbitrator or Surveyor, is directly or indirectly interested in any matter referred to him by the Chamber, he shall notify his inability to act, and in such case a fresh appointment shall be made forthwith

6. In case of Arbitration, the Arbitrator shall, through the Secretary, appoint a time for the hearing of the reference and within seven days of notice in that behalf, the parties shall sign and submit to the Secretary a joint written statement or separate written statements in the form annexed hereto, or as near thereto, as circumstances will permit.

If separate statements are put in, the Committee may, at its discretion, cause a copy of each statement, with or without accompanying enclosures or extracts therefrom, to be submitted to the opposing party for information and remark, if desired, before being placed before the Arbitrator.

7. The decision of the Umpire shall be the decision of the Arbitration or Survey; such decision need not necessarily coincide with the opinion of either of the Arbitrators or Surveyors.

8. All decisions by Arbitrators, or Surveyors, under these Rules, shall be submitted in writing to the Committee of the Chamber of Commerce, which shall cause the same to be communicated to the parties concerned

Each decision, so far as may be possible, shall be supported by a statement of the reasons upon which it is based.

9. Arbitrators or Surveyors shall have the right to call for such evidence as they may deem necessary, but shall not have the right to take the opinion or assistance of Attorneys or Counsel

10. When a matter shall have been referred to a Sub-Committee, the decision of the majority of such Sub-Committee shall be final

Such Sub-Committee shall, for the purpose of the reference made to it, be deemed to represent the Committee of the Chamber of Commerce, and to exercise, for such purpose only, the full authority of such Committee

11. All decisions of Sub-Committees shall be in writing, shall, so far as may be possible, recapitulate the reasons on which they are founded, shall be signed by the Chairman of such Sub-Committee, and shall, under the direction of the Sub-Committee, be communicated to the parties by the Secretary to the Chamber of Commerce, who, under these Rules, shall act as Secretary to all Sub-Committees.

12. Sub-Committees shall have the right to take such evidence as they may deem necessary, and shall also have power to call for the opinion or assistance of Attorneys or Counsel, provided that the disputants have previously agreed to this course being followed, and have further agreed to bear the expense thereof.

13. Before any application for Arbitration or Survey shall be entertained, both parties shall make such deposit with the Secretary as may be directed by the Committee of the Chamber of Commerce.

The Committee of the Chamber of Commerce shall fix the fees for each Arbitration or Survey.

14. The Arbitrators or Surveyors shall state in their Report by whom and in what proportion, if any, the fees and expenses shall be paid.
Deposits not affected by this Rule will be returned.

15. In cases where neither of the parties to the reference is a Member of the Chamber of Commerce, the fees payable shall be double those payable by Members of the Chamber, and such enhanced fees shall be divided equally between the Arbitrators, Surveyors, or Umpire, and the Chamber of Commerce.

16. A record of all Arbitrations and Surveys and all decisions by Sub-Committees shall be kept at the office of the Chamber of Commerce.

RULES FOR ARBITRATIONS AND SURVEYS ON PIECE-GOODS AND YARNS.

(As revised in August 1910.)

Whereas it has been represented to the Madras Chamber of Commerce (hereinafter called "the Chamber") that it is desirable to give Arbitration Awards and Survey Reports on piece-goods and yarns an official character, the following Rules have been passed by the Chamber for the attainment of that end:—

Rule I.—Certain gentlemen, who have been nominated and unanimously elected by an annual ballot held in January by the Committee of the Chamber shall be appointed Arbitrators or Surveyors to the Chamber, but the Chamber reserves the right of cancelling the first and all future appointments by a majority of votes of the Committee of the Chamber by ballot.

Arbitrations

Rule II.—In every case where a dispute has arisen in relation to a contract which provides for a decision thereon by the Chamber or in relation to a contract in respect of which both parties thereto shall have subsequently agreed in writing to submit to such a decision, either party to such a contract may apply to the Secretary of the Chamber for the appointment of Arbitrators to adjudicate the dispute.

On receipt of such application, two Arbitrators shall be appointed in accordance with the following provisions.

Rule III. The Imports Sub-Committee shall select the Arbitrators from the authorised list, and if the Arbitrators are unable to come to an unanimous decision, the Imports Sub-Committee shall select an Umpire either from the authorised list or otherwise provided that no Arbitrator or Umpire shall be selected or shall adjudicate on a matter in which he or his employers are interested, and not more than one person from the same firm shall be appointed an Arbitrator or Umpire. If any Arbitrator or Umpire declines or fails to act or if he dies or becomes incapable of acting, the Imports Sub-Committee may appoint a new Arbitrator or Umpire in his stead in like manner.

Rule IV.—The names of the Arbitrators or the Umpire shall not be made known to any person whatever except as provided in Rules IX and XXI, but the Secretary's record of the Arbitrations shall be available for inspection by the Imports Sub-Committee and by the Chairman of the Chamber or in his absence from Madras by the Vice-Chairman.

Rule V.—The approved list of Arbitrators under these Rules shall be circulated annually, or whenever asked for, to all Members of the Chamber, and shall be supplied to any party applying for the same.

Rule VI.—Before any Arbitration shall be entertained, a sum of Rs. 16 for each Arbitrator, Rs. 16 for an Umpire, and Rs. 16 for the Chamber for each contract in dispute and a sum of Rs. 5 to cover the stamp on the award under the Indian Stamp Act shall be paid to the Secretary. Fees not expended will be returned to the depositor.

In cases where neither of the parties to the application is a Member of the Chamber, an additional fee of Rs. 25 shall be paid to the Secretary for the Chamber.

Rule VII.—The Arbitrators shall, through the Secretary, appoint a time for the hearing of the reference and within seven days of notice in that behalf the parties shall sign and submit to the Secretary a joint written statement or separate written statements in the form annexed hereto, or as near thereto, as circumstances will permit.

If separate statements are put in, the Import Sub-Committee may, at its discretion, cause a copy of each statement, with or without accompanying enclosures or extracts therefrom, to be submitted to the opposing party for information, and remark if desired, before being placed before the Arbitrator or Arbitrators.

Rule VIII.—At the time appointed for the reference, the parties shall have ready at the rooms of the Chamber, or elsewhere as directed by the Secretary, the sale samples duly attested, and if required, sample pieces or complete bales. Samples or bales so sent will be at sender's risk and must be accompanied by a peon in charge and by a cooper to open the packages.

Rule IX.—The Arbitrators or the Umpire shall have general authority to require from either of the parties such further written or verbal statements and explanations

and other information, evidence and materials as they or he may deem expedient for determining the matter in difference but shall not have the right to take the opinion or engage the assistance of Counsel, Attorneys or Vakils.

Rule X.—The Arbitrators or the Umpire shall proceed with the reference in the absence of any party who shall, after due notice, refuse or neglect to attend, or who shall have refused or neglected to sign and submit the written statement referred to in Rule VII without having previously satisfied the Arbitrators or Umpire that reasonable and sufficient excuse exists for such neglect or refusal.

Rule XI.—The Arbitrators or the Umpire in dealing with the reference shall have power to cancel the contract or direct the performance of the contract subject to an allowance, or grant such other relief as they or he may think fit, and shall direct by which party the costs of the Arbitration shall be paid, and shall, as far as possible, support their or his award by a statement of the reasons upon which the same may be founded.

Rule XII.—The insertion of a clause is recommended in all contracts made with dealers to the effect that, in the event of any dispute, the parties to the contract agree to abide by the decision of the Arbitrators or Umpire appointed by the Imports Sub-Committee of the Chamber under and in terms of its Rules for Arbitrations and Surveys as revised in 1909.

Rule XIII.—Neither party shall bring or prosecute any suit or proceeding whatever against the Arbitrators or Umpire for, or in respect of the matters in dispute or any of them nor any suit or proceeding, save for the enforcement of the award against the other party.

Rule XIV.—The provisions of the Indian Arbitration Act and of the first Schedule thereto shall, in so far as the same are not inconsistent with these Rules, apply to all references hereunder, provided always that in the third provision to the said first Schedule for the words "three months" shall be substituted the words "fourteen days" and in the fifth provision for the words "one month" shall be substituted the words "one week."

Surveys.

Rule XV.—Any person may apply to the Secretary of the Chamber for a Survey, and if the Imports Sub-Committee be of opinion that the application is one which should be entertained by the Chamber, it shall, subject to the proviso to Rule III, appoint a Surveyor or Surveyors from the authorised list. In the event of no special number of Surveyors being asked for, only one shall be appointed.

Rule XVI.—The applicant for a Survey shall in his application clearly state the purpose for which the Survey is required.

Rule XVII.—Before any Survey shall be entertained, the applicant if a Member of the Chamber, shall pay to the Secretary a fee of Rs. 16 for each Surveyor and Rs. 16 for the Chamber, and if not a Member, an additional fee of Rs. 5 for the Chamber.

General.

Rule XVIII.—All decisions shall be submitted in writing to the Secretary, who shall then, without disclosing the names of the Arbitrators, Umpire or Surveyors, communicate the result to the party or parties concerned.

Rule XIX.—A record of all Arbitrations and Surveys shall be kept in the office of the Chamber.

Rule XX.—The parties to an Arbitration, or either of them, or if either of them should be dead, their respective personal representative requiring the same, or the applicant for a Survey, shall, on application, be entitled to receive from the Secretary of the Chamber a certified copy of the Award or Survey Report under his signature. For each copy of such certificate, a fee of Rs 3-8 shall be payable to the Chamber.

Rule XXI.—Should parties to an Arbitration or the applicant for a Survey require the attendance of Arbitrators, Umpire or Surveyors in a suit or other legal proceeding in which an Award or Survey Report of the Chamber is to be produced in evidence, the Secretary of the Chamber is authorised to give the names of such Arbitrators, Umpire or Surveyors upon receipt of a requisition by either party, stating that it is for that purpose only that the information is desired.

Bust of Lord Hobart.

INSCRIPTION.

Inscription in Hindustanee, Tamil and English. Vere Henry Lord Hobart, Governor of Madras from A.D. 1872 to 1875, Defender of the Poor.

The following were Lord Hobart's last words to the Presidency College, on April 19th, 1875:—

"Education brings with it a sense—a delighting and ennobling sense—of power and freedom, but brings with it also a sense of the great duty of political subordination and enlightened liberality of thought, which can appreciate the value, understand the difficulties, and make allowance for the defects of a firm and liberal administration. This invitation of the West to the East, this call to the intellectual association will prove (as I firmly believe) to have been the knell of every painful feeling that ever marred or impeded their intercourse.

Misunderstanding, which is another name for ignorance, lies at the root of every kind and degree of national antipathy. Religious animosity, which is another name for unreasoning folly, cannot breathe in the pure atmosphere of mental advancement. The prejudice which could resist both time and civilization melts away before the sympathy of thought. Men born at the mere accident of race or faith can never affect either the motive or the obligation of mutual friendliness and respect, and that, whether born in England or in India, and whatever may be the creeds and dogmas which have kept them so long and so lamentably asunder, their duty and interest for the present and their hope for the future is in reality the same"

On the 27th of April, eight days later, Protestant Catholics, Roman Catholics, Mussulmans and Hindus knelt in united prayer round their Governor, while his spirit passed away. As a memorial of Lord Hobart's efforts to diminish taxation and establish a system of elementary education throughout the Presidency of Madras, this bust is presented by his widow Mary Catherine Hobart.

Resolution of the Government of India, Home Department (Public), dated Calcutta, 29th January 1904, No. 234-42.

About three years ago the Government of India were led to consider the methods that might most advantageously be adopted for the preservation of historical relics and of interesting sites or buildings in India, and for the perpetuation of the surviving records of a past that is every day tending to disappear more and more from the public recollection. Among the objects that commended themselves to their notice from this point of view was the commemoration of the houses or dwellings which are notable for their historical associations, or in which distinguished public men, whether European or Indian, have resided at different portions of their careers. A good many of these are still standing, and are pointed out with certainty to the student or traveller. The antecedents and identity of others are already becoming matters of uncertainty ; and authentic history is beginning to pass, in some cases into tradition, in others into legend. It seemed desirable, before this process had attained further dimensions, to arrest and crystallize, as far as possible, the definite knowledge that is still forthcoming of the former residences of men who have left an enduring mark upon the civil and military administration or upon the moral and intellectual development of India.

2. In England the Society of Arts has for some time past interested itself in a similar undertaking, by placing upon the facade of houses in London and elsewhere a circular terracotta medallion with a simple inscription on its face, recording the fact that this or that famous personage lived there in such and such a year or years. In this way, a number of valuable historical memories have been revived or recovered ; and a walk through some of the older London streets has been rendered not only interesting but instructive.

3. Accordingly, after careful consultation with the local Governments concerned, the Government of India have determined to adopt a similar plan in this country. The buildings which they have decided to commemorate for historical reasons or as having been the residences of famous men are shown in the statements annexed to this resolution which indicate the grounds for the decision in each case. The number is necessarily limited, and great care has been exercised in the selection of those buildings whose associations are mainly personal, so as to prevent that which should be an honour to the few from becoming the prerogative of the many. Some of these houses are the property of Government, and no difficulty arises in the placing of a memorial medallion upon them. Others belong to private persons and the permission of the owner has been sought for its

erection. It is understood that in all cases this has been readily given. It has not been found in England that any serious objection has been entertained by individual proprietors to the fulfilment of what is really a public trust: and the Government of India have not been disappointed in their expectation that the standard of public spirit in India would be found to be in no way lower than in Great Britain. The Governor-General in Council trusts that the measures now adopted will have the effect of preserving those personal and local associations which in India are peculiarly liable to be forgotten, and that a direct stimulus will thus be given to the more intimate study of the history of the past. The example thus set may perhaps admit of being followed in places where distinguished Indian statesmen have rendered conspicuous service to Native States.

BURMA DIRECTORY

BURMA DIRECTORY

BURMA

The name given to the country stretching along the western edge of that portion of the continent of Asia which lies between the Bay of Bengal and the China sea is known generally as Indo-China. It is situated between latitude 9° 58′ and latitude 28°N and between 92° 11′ and 101° 9′E longitude, covering a superficial estimated area of 261,839 square miles, of which 164,411 are under direct British administration, while 66,428 belong to dependent Native States and 31,000 are unadministrated territory. Due north the boundary between Burma, Tibet and China has not been precisely determined. Assam, Manipur, the Lushai Hills, and the Chittagong Hill Tracts hem it in on the north-west, and its western border is the Bay of Bengal. Its north-eastern and eastern frontiers march with the Chinese province of Yunnan, the Chinese Shan and the Lao states, the French possessions in Indo-China, and the kingdom of Siam, and on the south it is bounded by that portion of Siam which forms part of the Malay Peninsula. It thus constitutes the easternmost rampart of the Indian Empire.

The origin of the word 'Burma' is by no means certain. It is argued, on the one hand, that the name came from India in the shape of 'Brahma'; on the other, that it is a corruption of the Chinese name for the Burmese race. The former was the view held by Sir Arthur Phayre; and, when it is borne in mind that in the works of European writers of the seventeenth and eighteenth centuries the country is occasionally referred to as 'Burma,' there would certainly appear to be *prima facie* grounds for the theory. At no time, however, has Brahmanism found a footing in more than an insignificant portion of what is now Burma; and, on the whole, the weight of opinion appears to lean towards the second hypothesis, which was originated by the late Bishop Bigandet, the scholarly Vicar Apostolic of Southern Burma. 'Mien' is the Chinese for Burma, and the Burmese name for Burma was and is still written Myanma, though ordinarily pronounced Bama. The Shans called Burma the country of the Mans, the term 'Man' having been originally applied by the Chinese to a group of tribes including the Lolo and the Mantzu, who are found in considerable numbers in the Province of Ssuch'wan. The Manipuries on the northwest frontier of the Province call the Burmans 'Maran'. Burmans in Kachin and Maru are styled 'Myeng' and among the Palaungs, a Mon-Anam pre-Burman hill tribe inhabit the north of the Shan States, who are absolutely free from the suspicion of exposure to Hindu influences. Burma is known as 'Bran.' In short, internal evidence all points to a Mongolian derivation.

HARBOURS—

The province boasts of few good natural harbours. With three exceptions (Akyab, Kyaukpyu and Mergui) the principal ports are situated on tidal rivers at some little distance from the sea, and none of the harbours on the sea-face is exceptionally commodious or easy of approach.

CLIMATE—

Burma has long enjoyed an unenviable notoriety in the matter of climate, but is slowly outgrowing its reputation as an irredeemably pestilential region. Malarial fevers are very prevalant in certain localities, and the province still possesses towns, such as Kyaukpyu and Kengtung, which are deplorably unhealthy; but jungle-clearing and conservancy have worked wonders in the past few years in reducing the detail of these penal settlements and now, whatever may be said of the jungle areas, the majority of places inhabited by Europeans are as salubrious as average stations in the east. For the greater part of the year Lower Burma is a most relaxing place of sojourn, but it is by no means as deadly as it is often supposed to be; and the dry

zone of Upper Burma is, except for a few weeks in the spring and autumn, neither overpoweringly hot nor remarkably unhealthy. Life in Burma is often, it is true, a burden to the enervated foreign resident, but his bodily discomfort has but little connection with his state of health, as gauged by the bills of mortality; for the close, steam days of the early monsoon are not so dangerous as the cooler, but more treacherous, periods that usher in the cold season, and March and April, two of the most burdensome months of the twelve in the dry districts, are nevertheless among the healthiest.

History—

Burmese history, as recorded by indigenous chroniclers, goes back to an exceedingly remote period and its earlier chapters deal with events that are for the most part obviously legendary, but of interest in so far as they afford a clue to the distribution over the country of the various races that claim Burma as their home. It is impossible to place a finger on to the precise point at which fact begins to emerge from fable. Our present knowledge of the people of the country enables us to dismiss as wholly fabulous the story that the first Princes of Burma came from Benares. It is clear, however, that the Burmans, in their progress down from their northern pre-historic home in Central Asia, first established themselves as a political entity in the country round the northern reaches of the Irrawaddy. Their earliest known capital was Tagaung, a town on the left bank of the river, in what is now the Ruby Mines District of Upper Burma. It may be necessary to accept with some reserve the statement, put forward by the early Burmese historians, that a Dynasty was founded here at the beginning of the 10th century B. C.; but that this settlement took place at a very early era is clearly indicated by the story of a branch which, after the foundation of Tagaung, spread westward, first into the Chindwin Valley and next into the vicinity of the Kaladan river in Northern Arakan. This migration can have been nothing more or less than the diversion to the western coast lines of the peoples who subsequently became the Arakanese and in all probability separated from the Burmans during the early centuries of the Christian Era. Subsequent movements of parties into the Shan states and down the Irrawady alluded to in these early annals point to a possible solution of the problems connected with the origin of the Taungthus and the Inthas, and presumably of other Tibeto-Burman hill tribes now resident on the confines of the province. It was during this early legendary period that a section of the primitive Burmese community forsaking the main body, pressed southward and founded in the border land between the dry and wet zones of the country the Dynasty of the Pyus at Prome, which for many years was the centre of Burmese tradition.

The earliest English connection with Burma began in 1612 when the East India Company had agents and factories at Syriam "Near Rangoon," Prome and Ava. But the Portuguese had factories at Syriam and Martaban "opposite to Moulmein" as early as 1519, and though all Europeans were expelled from the country about 1650, agencies were again established at Syriam and Bassein before the close of the century and those remained with a short interruption till the annexation of Arakan and Tenasserim. A resident had been deputed to Rangoon in 1796, which town was built by King Alompra in 1755.

The total area of the province is 230,839 sq. miles with a population of 12,115,217 in 1911.

The principal seaports are Rangoon which is 960 miles due east of Madras, Moulmein, Bassein "in the Irrawady delta", Tavoy and Mergui on the Tennasserim Coast, and Sandoway, Kyaukpyu and Akyab on the West Coast of Arakan.

Rangoon is an important city, with the headquarters of Government, and is the terminus and headquarters of the Burma Railways.

THE HOLY TRINITY CATHEDRAL.

Pagoda Road.

Cathedral Chaplain.—Rev. W. H. Cowper Johnson

The foundation-stone of a Cathedral for the Diocese of Rangoon was laid by His Excellency the Viceroy on 24th February 1886, the Festival of S Matthias. The site was a portion of the Diocesan School compound. It has been erected from plans made by Mr. Chisholm. It is built in brick and in modified early English style, with stone pillars and arches dividing the Transepts and Aisles from the Nave. The Chancel is surrounded by an ambulatory and has a conveniently placed organ loft on the north side. There is a Baptistry at the West of the Nave, and a Tower and Spire nearly 200 feet in height, over the South-West entrance Porch. The Apsidal east end is pierced by five single lights which are filled with very fine painted glass whilst the western wall has a Rose window 16 feet in diameter. The roofs of Transepts and Nave are open, revealing the magnificent wood of Burma, whilst the roof of the Chancel and Apse is groined in selected bricks The Chapter house is not yet built; it is to be two-storeyed, octagonal in form with groining resting on a central pillar The Chancel and Sanctuary are raised above the level of the Nave so that the Altar of carved marble stands 5 feet above that level. In 1908, Electric Lights and Fans were installed, and the following year saw the erection of a carved Choir Screen and Stalls in carved teak work. The North and South Transepts are fitted up as Chapels, the latter as a Memorial to the late Bishop Strachan. The Cathedral was consecrated on 25th January 1905. *Cathedral Organist.*—C. N.
